| Problem p  |                 |   |             |                     |            |  |  |  |
| <ul> <li>Sort st</li> </ul>  | udent work into | groups based on   | the strateg | ies used to solve t | he problem |  |  |  |
| <ul> <li>For each strategy, list the students who used it, and note what they understand</li> </ul>              |                 |   |             |                     |            |  |  |  |
| <ul> <li>Choose one group on which to focus, and write a problem with them in mind</li> </ul>                    |                 |   |             |                     |            |  |  |  |
| <ul> <li>Notate the different strategies you expect to see when you pose the problem to your students</li> </ul> |                 |   |             |                     |            |  |  |  |
| Collaboration Notes:   |                 |   |             |                     |            |  |  |  |
| Conaboration   |                 |   |             |                     |            |  |  |  |
|  |                 |   |             |                     |            |  |  |  |
|  |                 |   |             |                     |            |  |  |  |
|  |                 |   |             |                     |            |  |  |  |
|  |                 |   |             |                     |            |  |  |  |
|  |                 |   |             |                     |            |  |  |  |

| PROBLEM TYPE / NUMBER CHOICES: |  |  |  |  |  |  |  |
|--------------------------------|--|--|--|--|--|--|--|
| Problem to pose next:          |  |  |  |  |  |  |  |
| ·                              |  |  |  |  |  |  |  |
|                                |  |  |  |  |  |  |  |
|                                |  |  |  |  |  |  |  |

## Next steps to take (tasks) before meeting again:

- Each team member will pose the problem above and collect the student work for the next meeting.
